

Why Prefer BizPortals 365 Over Other Intranets?

“ To win in the marketplace, you must first win in the workplace.”

Says Doug Conant, CEO of Campbell's Soup.

Contemporary business leadership is more concerned about reducing the organizational costs that count on unorganized and less collaborative workplaces. The above quote fits well with this statement. Undoubtedly, winning a marketplace is challenging, but BizPortals Solutions can help you win your workplace.

BizPortals 365 is a turn-key SharePoint intranet solution serving a myriad of businesses for over 15 years. With high-value intranet features, it offers you an ideal digital workspace with ready-to-go and easy-to-use widgets.

BizPortals 365 is a broader umbrella sheathing all your business-critical information, documents, departments, employees, and management together under one roof.

It ensures a unified platform accessible to every stakeholder and offers a more secure, centralized, and organized environment that fits well with the present-day hybrid work culture.

Maximizing your ROI, BizPortals 365 offers a highly interactive platform with seamless employee engagement, effective team communication, unrestricted information sharing, and a flawless digital workplace experience.

Being a trusted Microsoft Gold Partner for over 15 years, BizPortals 365 is a one-stop shop for all Microsoft 365 productivity tools and applications that won't let you go out searching for random business applications.

'One size doesn't fit all,' proving this right, BizPortals 365 intranet supports scalability and easy customization to match your business-specific requirements and standards at a comparatively low price. Design it your way!

Let Us Walk You Through Our Hassle-Free Implementation Process

BizPortals Solutions strives for a systematic and smooth implementation plan to empower businesses of all sizes. It takes less than a few weeks to transform your entire workspace into a digital one.

Discovery

We outline your current business environment and industry-specific needs to design a solution that meets your expectations.

Branding and Content

Provide an identity to your intranet by corporate branding setup, content planning, and data migration as required.

Pilot walkthrough

A pilot intranet setup to ensure planned customization and smooth functioning of content and information architecture.

Roll out

Final intranet configurations include forms and process automation. We set up a full-fledged intranet for launch, focusing on content-rich and sound process deployment.

Customer Success Training and Support Services

With our top-of-the-line support services, you can focus on your customers while we keep your solution upgraded and running smoothly.

- Extensive help in deployment, configuration, training, and onboarding users.
- On-going engagement to ensure maximum user adoption and assistance in advance usage.
- No hidden support fee packages to ensure minimum business cost.
- Unlimited upgrades with new features.
- Online help and knowledge base articles for future reference.
- Email and personal support for issues and help.

Leverage our 15+ years of experience to design a robust intranet solution for your workspace. Take your enterprise success to the next level with BizPortals 365.
